

IP-MODULE

- The perfect tool to take over new connections.
- Provides a dummy line
- Can replace existing account code
- Tested and confirmed to all serious monitoring central stations
- Low cost and high reliability with AAP 5 year warranty
- Monitor internet service and can reset the local router if needed
- Virtual keypad allows for offsite control of panel functions via web browser (with Elite S & IP-LOOM)
- Upload download over the internet (with Elite S & IP-LOOM)
- Free receiver software can recognise Patriot LS-30, CSV and AAP's own encrypted format.

2G-IP-MODULE

- All the best features of the wired IP-MODULE plus
- No cables hassles to local router
- 2G-IP is backed up by the host alarm so will not be effected by power outage
- Permanently insulate your precious monitored clients from all future changes to their Telco provider or technology choices
- Flat rate \$5+gst network data plan allows for 2-hourly polling and sets/unsets/alarms
- Low low cost
- 5 year repair or replace warranty
- Field up-datable so future enhancements can be added
