

THE D-8

CONTROL PANEL.....

The D-8 Control Panel represents the latest generation of Control panels utilising the most advanced technology currently available.

The power and flexibility of this Hybrid panel ensures that both your hard-wired system requirements and all your wireless needs are completely met by the one product. Yet the simplicity of the D-8 belies the powerful features afforded by its microprocessor heart.

The D-8 Control Panel combines all the useful features of other competitor panels and an extensive array which could only be identified with the most expensive panels on the market. Specifically designed for the residential and commercial markets, the D-8 offers outstanding value for money.

This quality security product is Australian designed and manufactured by a company who understands the environmental extremes that panels must endure without diminishing the importance of the features and performance expected by you.

Ness Security Products, with over a quarter of a century of experience in designing and manufacturing security products, are a quality accredited organisation to the international standard ISO9001 providing you with a product built to World's best practices and controls.

Your choice of the D-8 Security Alarm Panel, is a choice for unmatched quality, reliability and most importantly backup and support from a company who values your custom.

When uncompromised performance and quality are the foremost considerations in your panel decision you will not be disappointed by the Ness D-8.

8 Hardwired zone inputs

Supports up to 8 radio detection devices. ie P I R's or Radio Reeds as well as 14 pendants

Separate 24 Hr Zone Input

Supports up to 15 User codes.

Comprehensive Up/Download Software

Contact I D or Audible
Formats available

Remote Arming/Disarming access

30 Event memory (time & Date stamped)

Inbuilt Vibration sensor analyser

Area partitionable

18 button rubber backlit keypad
making the system simple to use

D-8 Security Alarm Panel Features

- 8 Fully programmable zones
- 1 additional 24hr input
- Total zone flexibility using any of 16 different zone applications
- Input to Output mapping.
- End Of Line Supervision.
- Area partitionable overlapping of zones in areas allowed.
- Adjustable sensitivity for vibration sensors on a zone by zone basis.
- Monitor mode
- Day zone feature
- Single or double trigger option on a zone by zone basis.
- Radio interface supporting up to 8 radio detection devices and up to 14 radio pendants.
- Comprehensive Windows based up/download software package.
- Secure DTMF remote arming/disarming capabilities

Standard System features

- Supports up to 3 remote LED Keypads
- 15 user codes
- Duress Feature
- Two button arming feature
- Fire Alarm feature
- True Dynamic Battery test
- 2 programmable auxiliary outputs
- Resettable fuses
- programmable siren/reset lockout
- 30 event memory from keypad
- Panic Feature
- Forced arming reporting
- Standard defaults to suit most applications.

Standard System Communications

- Contact ID Format
- Two programmable 14 digit telephone numbers plus one user programmable "follow me" number
- Audible format feature
- Auto Test calls
- Pulse or DTMF dialling
- Anti-jam feature
- True dial tone detection

supplied by

Specifications

Construction	3mm Polycarbonate (equivalent to 1.2mm mild steel)
Dimensions	223W x 300H x 85D
Plug Pack	Input 240Vac, output 17Vac @ 1.4A
Power Supply	13.8Vdc @ 800mA
Quiescent Current	80mA with 1 Keypad
Operating Voltage	9.5V-14V dc
Rechargeable Battery	12 volt 7.0 ampere hour lead acid
Battery Charge Current	350mA maximum, current limited
Dynamic Battery Test	Every Hour and on arming 10.75V with a 5 amp load
Fuses	1 x 2 Amp resettable for sirens and reset outputs. 1 x 500mA resettable for 12 volt auxillary outputs 1 x 200 mA resettable fuse for strobe output
Maximum Sirens	3 X 8 Ohm 10 watt horn speakers
