

# HALO Smart Sensor Integration

C12880

### Product description

HALO Smart Sensors detect substances in the atmosphere as well as light, pressure, temperature, humidity, and sound. The Gallagher HALO integration allows HALO events and alarms to be displayed, monitored, and reported on within Command Centre, just like other events and alarms. This allows Operators to easily view HALO events and alarms in Command Centre rather than having to use multiple disparate systems, saving time and providing better situational awareness. Within Command Centre, HALO devices can be configured to display on both Site Plans and Status tiles.

**Product information**  
System Brand: IPVideo  
Product name: HALO Smart Sensor  
Gallagher software versions interfaced to: Command Centre v8.70 or later.  
Available and supported: Worldwide  
Industry applications: All

### Product details

**HALO Smart Sensors**  
The HALO Smart Sensor provides a comprehensive health and safety tool while ensuring privacy in areas where you would prefer not to use a camera or microphone. It is the #1 vape detector worldwide for vaping and vaping with THC detection. As of 2021, HALO has won over 50 awards and is in over 1,500 school districts throughout the USA to help combat the vaping epidemic. Devices such as the HALO Smart Sensor are not only helpful for schools, but other markets as well such as healthcare, hospitality, commercial buildings, apartment complexes, assisted living, and more.  
The HALO Smart Sensor provides the following functionality:

- Indoor Air Quality Monitoring
- Vape Detection
- THC Detection
- Gunshot Detection
- Emergency Key Word alerting
- Audible alerting
- Light/Occupancy alerting
- Chemical alerting
- VOC alerting
- Tamper alerting
- Temperature, Humidity and Pressure alerting
