RIGID TRIALS FOR ROWERS

About 30 of the top rowers in New Zealand recently met in Wanganui to undergo extensive trials for places in a representative New Zealand squad. The selections were being made for representatives to row in the Canadian Centennial regatta in August. Fifteen men made the grade to travel with coach Russell Robertson (Oamaru) and manager Don Croot (Auck).

The most testing piece of the trials was the ergometer machine, a machine which recorded the power of the rower and his stroke rating in a simulated 6-minute race time. An electrocardiograph also recorded the rower's heart reaction during this test.

Above: Graeme Shaw goes through the gruelling ergometer test. From left are A. Howie (Dunedin) the electrocardiograph operator, Dudley Storey (Auck), Peter McGuinness (Wanganui), recording power output, and Graeme Moran (Wanganui), time keeper.

Below: Two of the selectors, Don Rowlands and Russell Robertson, watch on from the left of the pic as Hutt Valley's Ross Collinge puts up a good performance.

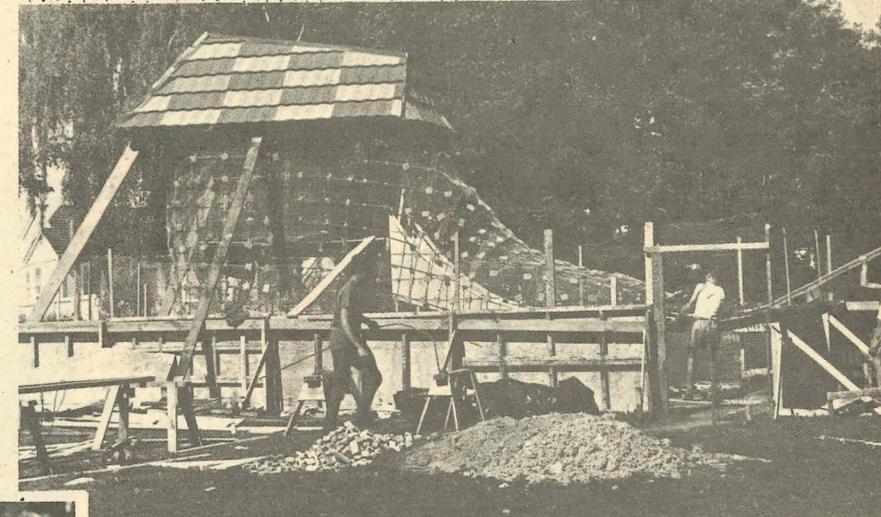

Above. Yankee Parking: It must have been someone used to driving on American roads who parked his 1100 outside the Criterion recently. Or perhaps he is just a non-conformist. Either way, he parked his wagon about face.

Bottom right. Potatoes Have Eyes: And to prove it, here is one wearing a pair of glasses. (Must be a spect potato). Believe it or not, this spud was turned out of the garden of former Wanganui optician, Mr Little.

Pretty

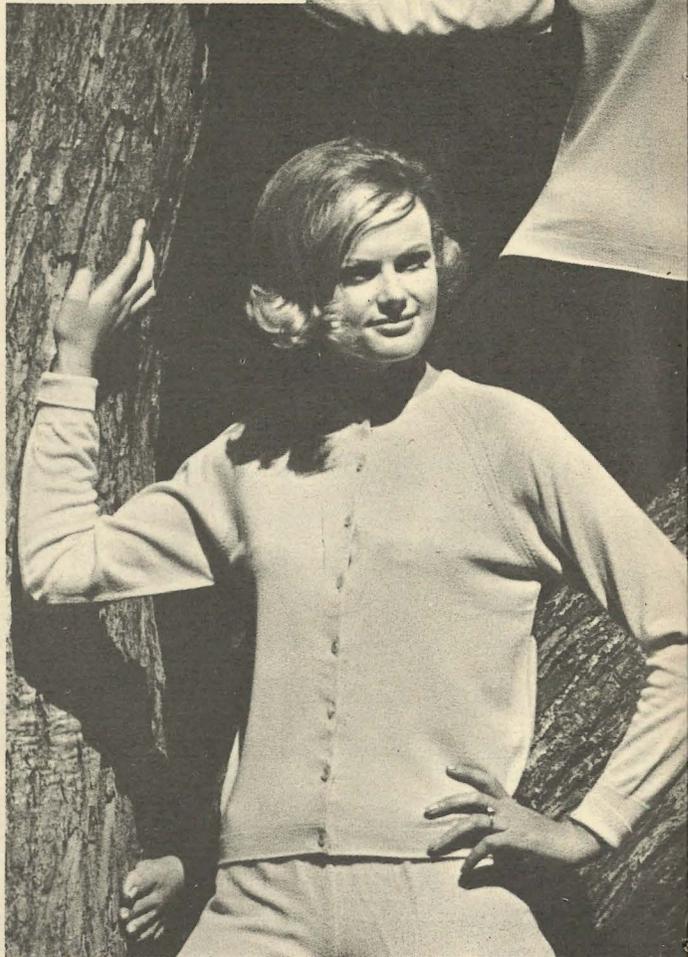

Meet Miss Wool of America again, pretty Barbara Petsel from Iowa. Only a very few months ago when Barbara went travelling she took only an overnight bag. Now, as an ambassador of wool, she travels with nine large suitcases of clothes. She will be in N.Z. for six weeks.

← **Trouser Suits**

Pure virgin wool flannel, checked and plain, is used by Maida Vale for these long-jacket look alike trouser suits. How do you like the matching cap?

Switchabout ▲

Value-for-money girls will appreciate the sound good sense, fashion-wise and finance-wise, of this switchabout Woolmark set by Southwell of Auckland. Jacket, skirt, and slacks in navy pure virgin wool jersey teams well with a red overblouse, featuring a navy motif for a terrific trouser suit or a smart conventional three-piece suit.

..... **Revolutionary Knitwear** ▲
 ← **Sporty** ●

Harris tweed is used in a mod manner in this Alexon design by Cantwell Creations, featuring rounded lapels and a self belt.

Described as one of the major innovations in the knitting field in recent years, revolutionary TD Orlon will appear on the New Zealand market shortly. A specially processed yarn, which produces a clearly-defined stitch, vivid expression of colour, better dimensional stability, resistance to surface distortion, and higher elasticity, it is shown in two long-sleeve, crew neck styles.

..... **Smart and Neat** ▶

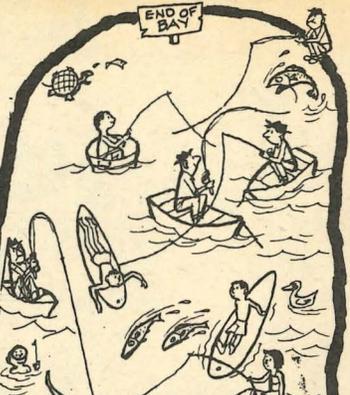

This slack suit, with a long-sleeved jacket, is one of the new Crimplene fabric garments unveiled to the clothing trade at a fashion show in Auckland last month. The new fabric, a big success overseas, is a crimped Terylene.

By Cecil Rigby

← Moment of Agony

Many spectacular rodeo pictures have been published in the pages of Photo News over the years, but the "daddy" of them all would surely be this shot, recorded at the Kihikihi Rodeo by Waito Pix photographer George Hawkins, of cowboy Rodger O'Neill's moment of agony.

Thrown from his furious mount, O'Neill lands awkwardly and his left leg breaks under the force of impact.

A second later he was writhing in agony under the flashing hooves, before being dragged clear and rushed to hospital.

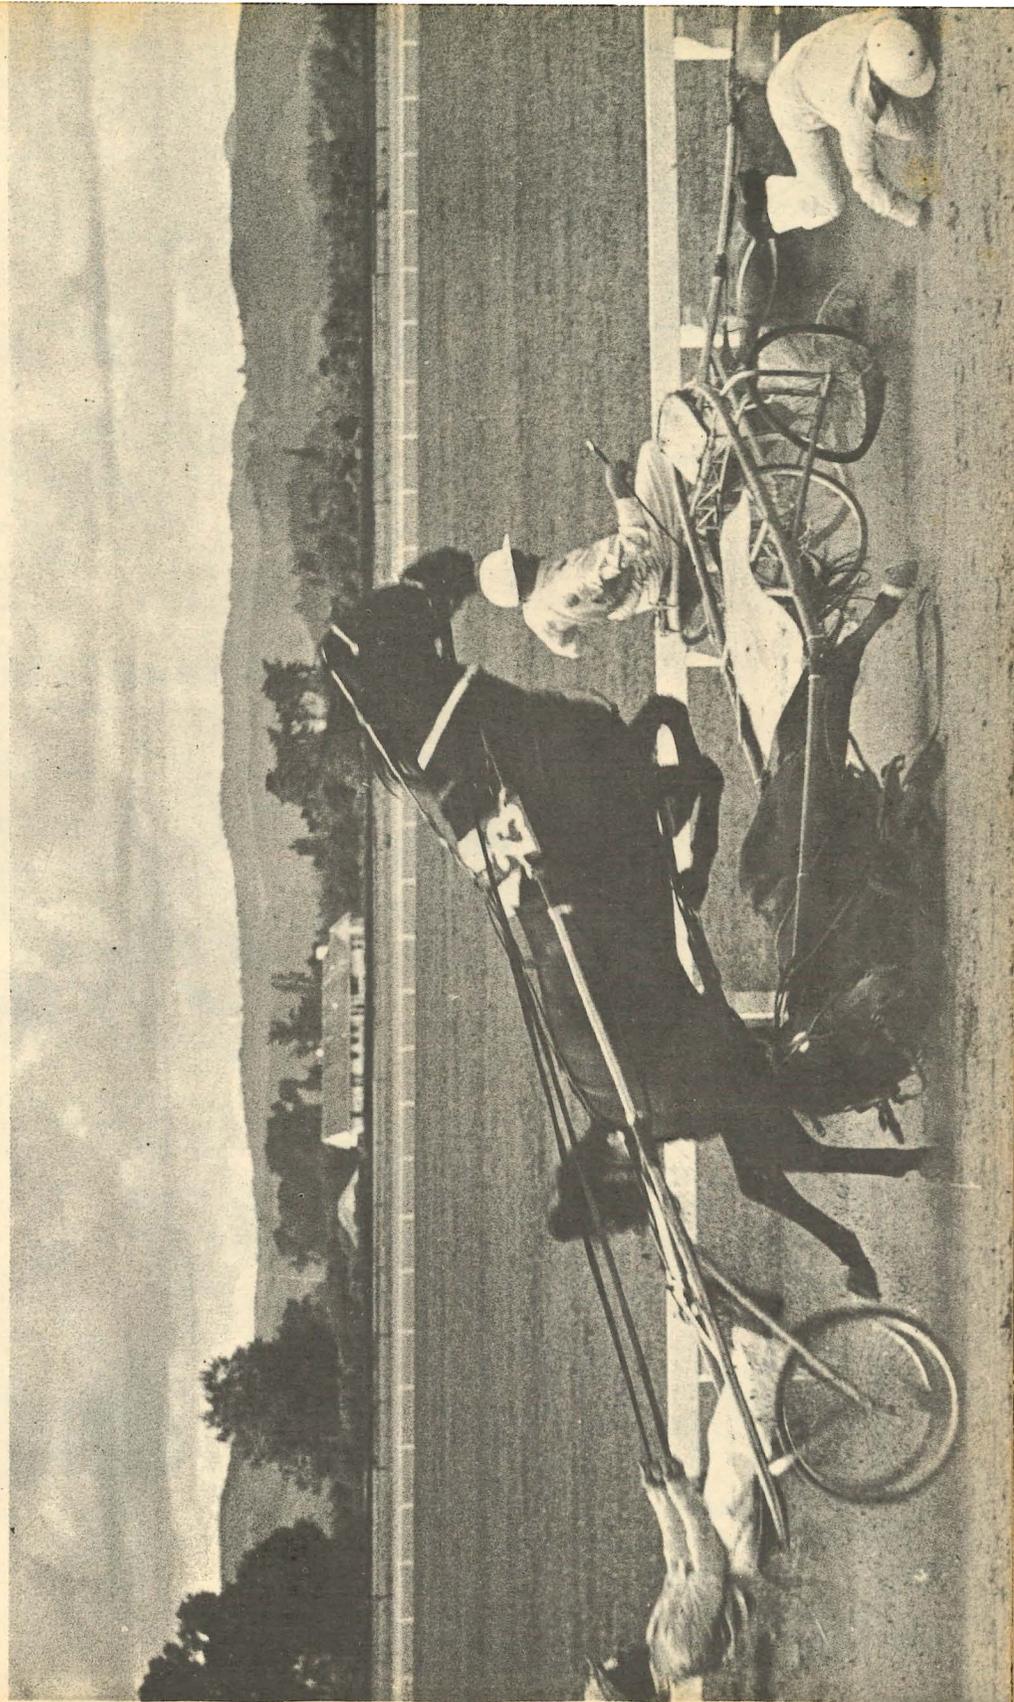

→ Whooa Boy!

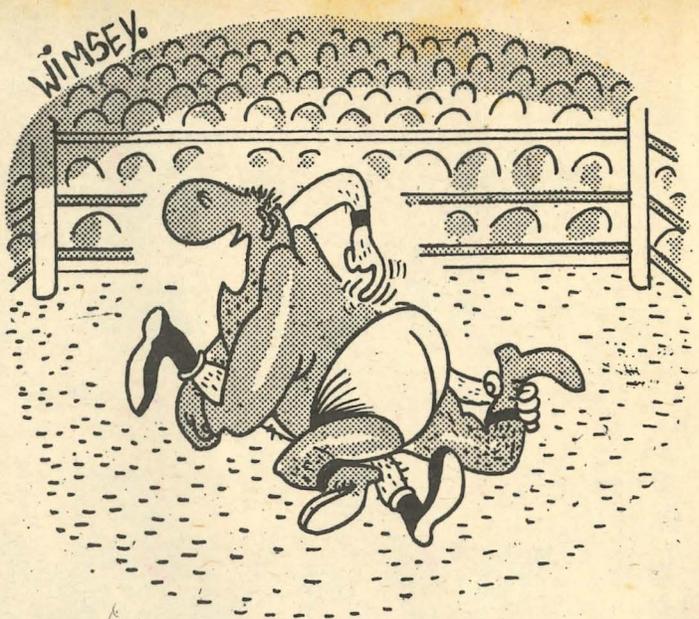

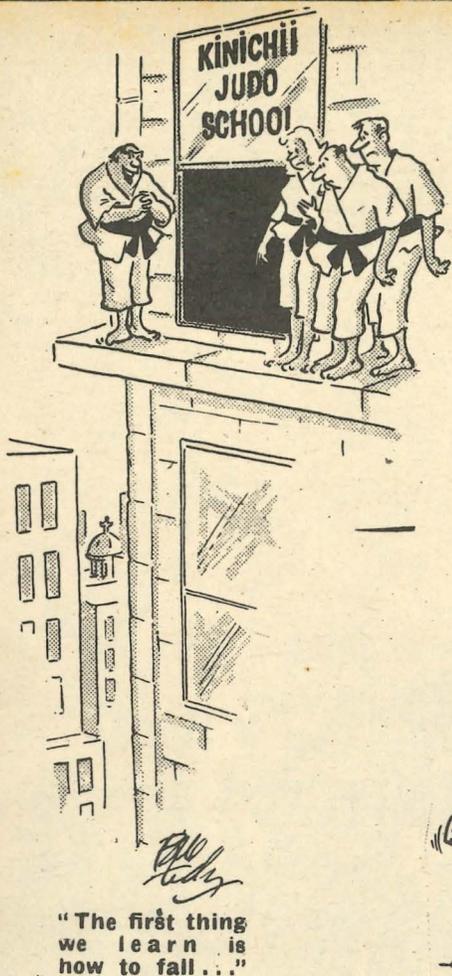

Another outstanding horse picture from the Hawkins file is this dramatic pile-up at the Cambridge Trotting Club's centennial meeting.

The picture shows the driver, of Stan By desperately pulling back on the reins in a vain attempt to stop his flying charge from leaping over a fallen Creggan.

Creggan's driver, I. Thomas, is thrown heavily onto the track, and was later admitted to hospital with spinal injuries.

The third horse, already fallen by the rail, is Volta.

"No, no, Charlie—a bit 'igher up!"

"... and I suppose you're going to fight me for the custody of the children."

"Can't stand him—always bragging about his transfer fee."

"Tea break's over."

"What's the knot for, to remind you to call in at the barber's?"

"I was attending the ship's psychiatrist..."

"... pause, take a sip of water, then carry on at a slower and a more deliberate pace."

"—and what's more, can you support my daughter in the number of pop records she's used to?"

Below: The Hollies, part of the "April Big Show", have had several hits on the New Zealand charts.

To Visit New Zealand

The N.Z. pop scene will be, like with-it, during the next few weeks when several top-line overseas artists visit this country.

Three top British acts will arrive in mid-April for Harry M. Miller's "April Big Show". They are the Hollies, Eric Burdon and the Animals, and Paul and Barry Ryan.

Late in March, Herb Alpert and his Tijuana Brass (right) will play at Auckland and Wellington.

Peter, Paul, and Mary will return for their second N.Z. tour in May.

◀ **Know Him?**

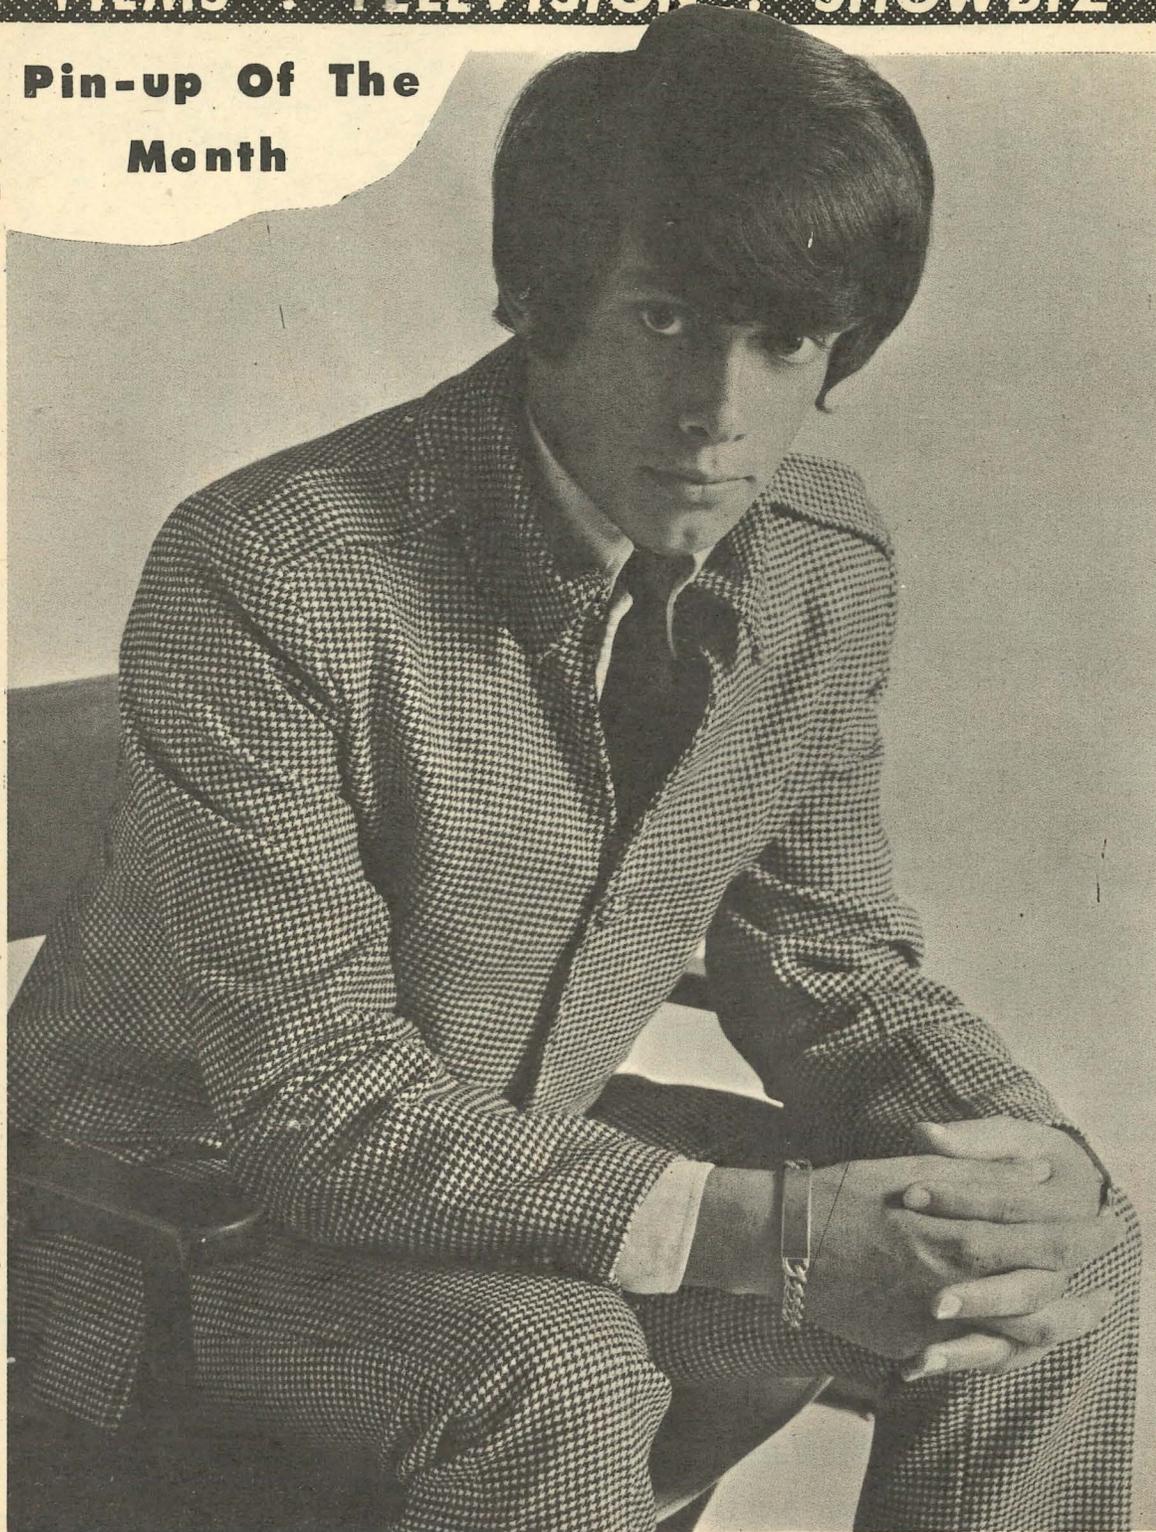

Recognise the crazy cat in the fringe and glasses? It's British entertainer Cliff Richard, who has adopted a new hairstyle since last visiting New Zealand.

Makeup for Lee ▶

Top-rated N.Z. popster Lee Grant has makeup applied by his cosmetician Diane Cadwallader before going before the T.V. cameras.

★ Wise Guy ★

The girls might question the Wisdom of having Norman act as the judge of their beauty contest, but they look quite happy about it. And so does hewell, why shouldn't he! This is a scene from the new British comedy, "Press For Time".

Pampering the Palate

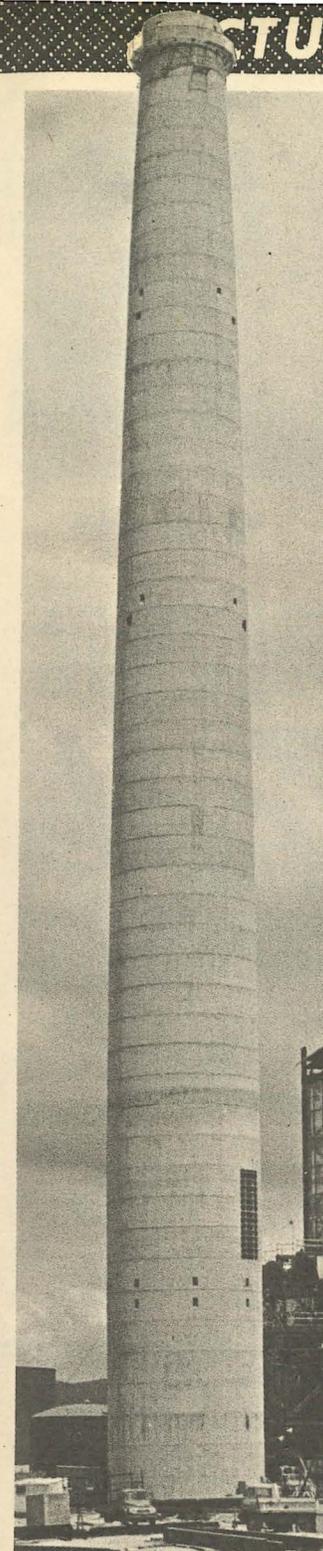

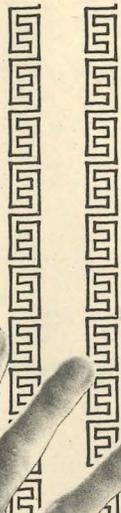

While T.V. food man Graham Kerr is away in Australia, his campaign for better appreciation and use of N.Z. foods does not suddenly cease.

There is a team of young New Zealanders at the National Food and Wine Centre in Wellington who carry on the task of focussing attention on our foods.

The team includes Kerr's business partner John Buck, the "Mr Wine" side of the centre, who is this country's only "Chevalier du Tastevin"...a French title for recognised wine-tasters.

The centre's activities include lecture courses on wines and food preparation, as well as display of foods, and staff members include trained home economists.

Left: Graham Kerr in familiar pose. Bottom left: "Mr Wine" (John Buck). Below: A member of the team, Ann Russell, is a trained home economist. Bottom: The centre's attractive receptionist, Heather Morrison.

Paraplegic Robin Hoods

Three of the growing band of courageous and devoted wheelchair sportsmen aim for the bull while competing in the archery section of the recent Paraplegic Sports, in Auckland.

The two rear archers, N. Brown and W. Flood, were both Silver Medal winners at the Jamaican Paraplegic Games. In front is N. Ruatara.

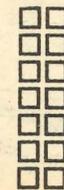

Wheelchair basketball, an apparently spectacular sport, is the newest event to be added to the already comprehensive programme.

Cloud-Piercer

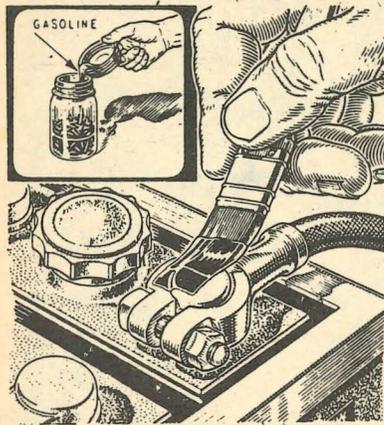

Seven layers of different materials, including compressed asbestos, stainless steel, mild steel, and a neoprene seal, were laminated by Industrial Chemicals (N.Z.) Ltd, in Auckland, to make bearings for this, the largest chimney in New Zealand.

The chimney is 400 feet high, and is on the site of the oil-fired power station now nearing completion at Marsden Point, Whangarei.

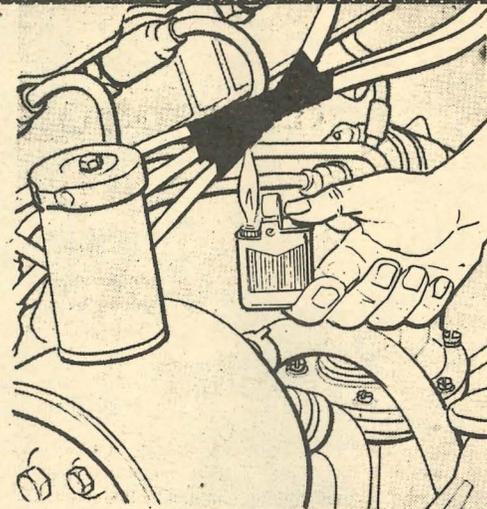

Note the apparently mini-sized trucks at the base of the structure.

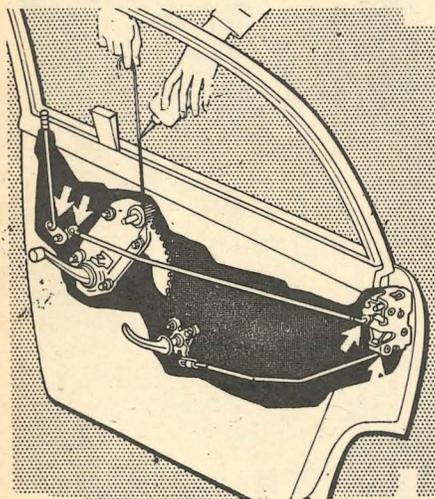

MOTORING WITH ROBBIE

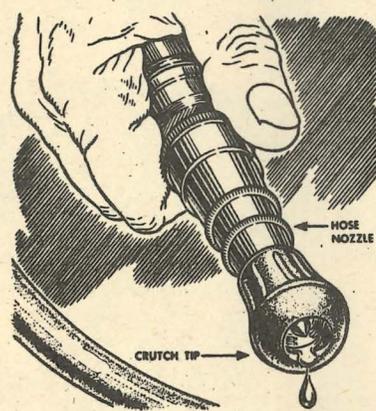

Stop battery corrosion around the posts and terminals with a paint made from the pitch of old batteries dissolved in petrol. The paint can be stored in a closed jar and brushed on whenever cables have been removed or a new battery is installed.

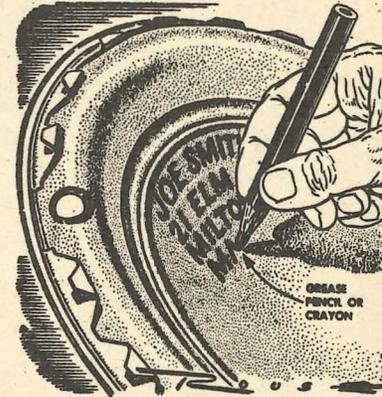

Removing electrician's insulating tape wrapped around a splice on lighting wires or wiring loom can be difficult, especially if the splice is in a cramped place. It will soften up and come off easily if you pass a match or lighter flame across the tape a few times. Don't set the tape alight, just heat it long enough to soften it.

If the side windows are hard to open and close, the mechanism may need oiling. Lower the glass all the way, wedge it to one side, and insert a stiff wire down to the mechanism. Oil deposited on the wire will follow it right down to the desired part. This works with door locks too, of course.

A hose nozzle can't scratch or chip your car's finish if you cover the end of the nozzle with a crutch tip. Cut a 5/8" hole in the crutch tip to let the water through and centre the hole so that it won't interfere with the fine-spray adjustment.

Print your name and address and telephone number with a crayon on the inside of your car's hub caps. If you should happen to lose one, there is a good chance it will be returned or you will receive a phone call to collect it.

About 100 rugby players and enthusiasts had a three-hour session of talks and practical demonstrations from one of New Zealand's rugby greats...former All Black captain Bob Stuart...at Spriggen's Park last month. Mr Stuart spent a lot of time on the tactics of rugby and also put particular stress on the essentials of peak physical fitness.

PEOPLE AND THEIR HOBBIES

Growing show-standard chrysanthemums presents Des Kendrick, 10 Jones Avenue, with an absorbing interest...and a great challenge. From the time the cuttings are set in October to the time of the show some six or seven months later, show plants must be carefully tended so as their blooms reach the right stage, at the right date. Des is one of about 60 members of the Wanganui Chrysanthemum and Horticultural Society. At present he is preparing his best blooms for the National Chrysanthemum Show to be staged in the Wanganui Memorial Hall on 28th and 29th April.

Above left: Des sets his cuttings in this electrically-heated hot box--temperature a constant 70 degrees. The cuttings strike in 10 days instead of six weeks by using one of these boxes. **Above right:** In this shelter he has about 60 plants (of five or six varieties) from which he will pick the best blooms for the National Show here. Best of luck Des...we will look for your winners at the show.

Around Town

PAVILION OPENED: The first big milestone in the life of the Wanganui Beach Improvement Society was passed with the recent opening of the William McAlpine Duncan beach pavilion at Castlecliff. It was built by Madder and Bourne, their tender price being £17,293.

LITTLE INTEREST IN AVENUE-INGESTRE STREET SITES: Only £25,000 was offered at an auction of a site at the corner of Victoria Avenue and Ingestre Street and two adjacent properties recently. This was well below the reserve so the sites were offered as separate units--still without satisfaction.
